UTS RADIO CONTROLLED DCF CLOCK MOVEMENTS

To set up the movement please:

Put the hands on at 11 o'clock.

Remove the pin with the white head
from the back of the movement.

Put your battery in.

The movement will fast forward either 4, 8 or twelve
hours and then stop and wait to pick up the signal.
Once it has picked up the signal it will set to time.

Any problems, give us a buzz on 01959 543660
